

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Judy (Judy Linda, Occupational Therapist) is exceptional. Her rapport with my son is great and she finds new and interesting activities that are challenging but not frustrating. If he's in a bad mood, she can always smile and play with him for only a minute or two before he's out of it. We have lived in three other states where we received therapy and Judy is the best therapist we've ever had, hands down. She's spectacular!

Our preschool's vision screening went very smoothly. Nicole (Nicole Smith, Pediatric Vision Screener) was patient and kind to our children. It is always a pleasure to see her every year!

* * * * *

We would like to thank the Elks for making these services possible. Brian Ferri-Taylor (Physical Therapist) has been a blessing to our family.

* * * * *

Anna (Anna Galvan, Pediatric Vision Screener) is absolutely wonderful to work with. We feel privileged to have her come every year and the parents so appreciate the free service. Anna is what I'd call a model employee. Very professional in all areas.

Hedley (Hedley Uetake, Speech-Language Pathologist) is great!! My son, Noah, loves her and looks forward to the speech sessions. She is very patient and shows genuine care for my son. She makes it fun for my son to help overcome his speech problems. I really am thankful for the California-Hawaii Elks for providing this to my son and others in similar situations.

A coin a day so they can walk, talk, see and play!
