

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Judy (Judy Wong, Occupational Therapist) is a wonderful occupational therapist and made therapy "fun"! My daughter, Taryn's, strength, coordination and confidence increased significantly the past couple of years. Some of her accomplishments include: riding a bike without training wheels, passing the physical fitness tests at school for sit-ups, pull ups, running and having the confidence and skills to be the best goalie on her soccer team! A big thanks to Judy and the Elks program.

I was very impressed with how Anna (Anna Galvan, Pediatric Vision Screener) handled the children. She was very effective in keeping everything running smoothly and having the children and families feel positive about the "pirate game"! Thank you very much for this service! It has helped many children and families that might not have been helped otherwise!

Daniel shows growth each and every time Brian (Brian Ferri-Taylor, Physical Therapist) works with him. We are both impressed by and grateful for his services!

Hedley (Hedley Uetake, Speech-Language Pathologist) was so patient with Brendan. He looked forward to speech sessions and Hedley did a great job at keeping Brendan engaged and focused with new games and activities every week. I felt comfortable with Hedley. She was so good with Brendan's brother and sister. I also appreciated her honest evaluations. Hedley is an excellent therapist and person, and I feel so lucky to have had her as my sons' therapist.
