

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Mavis Johnson (Occupational Therapist) is a great occupational therapist, my child loves working with her and he feels very comfortable which puts us at ease. She has been very professional, informative, and caring at each visit. Our son is still working toward his goal but has improved dramatically. Thank you so much California-Hawaii Elks and Mavis Johnson. Without you the lives of our children would be so much harder as well as ours. "Imagine a life of medication, no communication and lack of understanding." Thanks again.

Thank you for providing this service to our children. Each year the screening helps a few children. Katie Mackay (Pediatric Vision Screener) is exceptional with the children. It always runs smoothly and the children have fun. I would not change a thing.

Linda (Linda Pinnell, Pediatric Vision Screener) is wonderful! It's great how she involves the children in a game and the way she speaks to them allows the children to participate and get their eyes examined. We look forward to next year's vision screening with Linda.

She (Leeanne Cadwallader, Pediatric Vision Screener) was so patient with our young children. Many children would have appeared to have vision problems when actually they did not if she had not been so willing to stick with the process. Thanks!

A coin a day so they can walk, talk, see and play!
