

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Mavis Johnson (Occupational Therapist) is so awesome with my son Devin. His self esteem is so much higher. He is writing better, his balance has improved and he tries to accomplish tasks now. He is a happier person. Mavis is awesome.

The screening was very positive for the children. The parents certainly appreciate the service and the results. The screener (Leeanne Cadwallader, Pediatric Vision Screener) was very professional and easy to work with.

We are blessed to have had help from Denise (Denise Wilson, Physical Therapist). It was timely and much needed, as we had a preemie and had questions and concerns. I also must say a big thank you for the donations that made this possible for us. My husband lost his job right before I delivered. We were hard pressed and very concerned for our little girl. Denise was great - calm and helpful. Thank you!

This is our second year using Katie Mackay (Pediatric Vision Screener). She is very professional. Everything went smoothly. We really enjoy having her here!

This is a great community service. It is very professional and Gina (Gina Murphy, Pediatric Vision Screener) is very knowledgeable. I will definitely consider using your services every year. Gina is great with the children which really helped the screening run smoothly. We caught four children this year that needed to be referred!
