

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Very much appreciated the wonderful therapy provided by Maria Martin (Physical Therapist). Thank you to the Elks organization for sponsoring such an important service. The therapy received by our son through Elks made a very positive impact on his daily functioning.

This is an invaluable program. Most of our parents assume that the vision assessment performed by their pediatrician is acceptable. When they receive a referral they appear quite surprised and question the validity of the screening and credentials of the screeners. The parents who follow through with the recommendations are amazed at the accuracy of the screening in comparison to the professional assessment of an eye specialist and very thankful to our school for making the Elks Vision Screening available. (Anna Galvan, Pediatric Vision Screener)

Ms. Hedley (Hedley Uetake, Speech-Language Pathologist) did an excellent job servicing Marzon. Reaching goals set by Ms. Hedley were easily met through her expertise, knowledge and patience using numerous educational materials. We definitely appreciated the time, energy and compassion she shared during these sessions. Much Mahalo for allowing us the opportunity to participate in an excellent program with an excellent, professional and caring instructor.

Wyomi (Wyomi Yonzon Yockey, Pediatric Vision Screener) was well prepared. She talked to the children in ways they were able to understand. Children loved the eye patchess and the stickers. Wyomi showed efficiency, acted very professional and we would definitely invite her in the future.
