

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Bertha has improved a lot with Denise (Denise Wilson, Physical Therapist). She still drags her left side but is doing better. She tries to walk in a walker. I am sure she will do fine with continued physical therapy.

Maureen (Maureen McGuire, Speech-Language Pathologist) has been such a blessing to us. We have so much less behavior issues now that Jonah can relay his needs in words and not get frustrated when we don't understand.

I look forward to seeing Nicole (Nicole Smith, Pediatric Vision Screener) yearly and thank the Elks project for identifying possible vision problems so that the children will benefit and thrive. Again thank you for helping children reach their highest potential.

Thank you for this important service that you provide! There are no other organizations or others ways to have my preschoolers have their vision checked. Many of my families do not have access to health care. Gina (Gina Murphy, Pediatric Vision Screener) was terrific with the children. Thank you again!

A coin a day so they can walk, talk, see and play!
