

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

This program has been beneficial in promoting a greater development of speech with my son. My husband and I have noticed such an improvement in Nathan's speech. We understand him better and he is much less frustrated. Nathan and I look forward to Hedley's (Hedley Uetake, Speech-Language Pathologist) weekly visits. The activities she brings, as tools to assist in teaching various sounds, keeps Nathan's attention and makes learning fun. Thank you for offering this program! We only wish we could have started Nathan in the speech therapy sooner.

This is an excellent program. I am always thankful when we can be a part of it. Katie (Katie Mackay, Pediatric Vision Screener) does an excellent job and is very good with the children.

Mrs. Wong (Judy Wong, Occupational Therapist) was wonderful. She helped my grandson so much. She helped me understand the problems that I was struggling with as a grandparent. There aren't enough words to say about what a wonderful and helpful therapist she is.

I am very impressed with the information that I got about the importance of early detection of children's eye problems. This service is very needed. Linda (Linda Pinnell, Pediatric Vision Screener) does an excellent job with the kids!!
