

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

I liked the way our therapist (Maureen McGuire, Speech-Language Pathologist) was able to match the treatment techniques to our particular child's strengths and weaknesses. She worked very hard to find just the right approach.

I was very impressed with the efficiency in which the screening was accomplished. Linda (Linda Pinnell, Pediatric Vision Screener) was very organized and thorough. This was the first time I was directly involved with the process and I was pleased with the program. What a wonderful service to offer our students and parents. Thank you.

Katie Mackay (Pediatric Vision Screener) cares about children. All the children responded with respect to Katie and they were the quietest they could be for her. The children had a very positive experience and it continued through the day. Thank you.

Linda (Linda Pinnell, Pediatric Vision Screener) and her crew are wonderful. The kids have so much fun and they are so kind. We look forward to the Elks each year. They are truly a blessing to the families. Thank you Elks for sending Linda each year.

Caleb enjoyed working with Jocelyn (Jocelyn Agra, Speech-Language Pathologist). She was very patient with him. Jocelyn was very good at picking up on what he was having trouble with and even suggesting that he be tested further for language processing. We are currently doing this with Caleb's local school. Thank you all for your help in meeting Caleb's needs.
